

LARSON AWARDED 9 NEW PROJECTS

LARSON Themed Construction has announced a significant change in the company's operation, including a broadened perspective in its core business focus. Under the direction of Vice President Steve Clouten, and supported by a team of seasoned engineers, designers, and field personnel, the company has secured (9) new major projects, encompassing design, fabrication, and construction in the **Zoo, Resort, Casino, and Amusement Park** industries.

With newly acquired resources, expanded personnel, and these newest projects, the company has significantly broadened its capabilities in the creation of artificial and themed environments.
