# Point Hilton Resort at Tapatio Cliffs

Phoenix, Arizona

The Grand Canyon's thundering Havasupai Falls was replicated by Larson at the Pointe Hilton Resort at Tapatio Cliffs in Phoenix.

Larson blended artificial rockwork with existing mountaintop rock formations to create the centerpiece 40-foot waterfall that drops into 12 travertine pools and terrace gardens.

Larson constructed a scale model of the resort, provided design development and completed on-site installation of all rock and water features.
